The "Oversight Committee" of Yakov, Monsur, and Kenjibek are taking on more responsibility to oversee the ministry of the church body in Kyrgyzstan. They are diligently working to solidify the churches and the training of pastors and also to expand the mission. They take their work seriously and spend much time solving problems and making decisions for the good of the church and mission. Their duties keep expanding as the church grows and as problems grow. The three are equal in authority and they work well together to oversee the churches and its leaders. This is a challenging responsibility and they are growing into the job.

Oct 19 prayer:

Pray that The Three will not be overwhelmed with the burdens and the time needed to oversee the Lutheran Church of Kyrgyzstan. Pray that they will continue receive wisdom for God for huge job that confronts them every day. Pray that will become visionary leaders to fulfill the Ablaze Vision in this part of the world. Pray that their decisions will multiply gospel touches all over this land for the glory of Jesus Christ.

Thanks so much,
Tim
